

Year 4 Science: Animals, including humans

This half term, we are going to be learning all about digestion and food chains. It is one of my favourite science units to teach so I hope you enjoy – it might get a bit messy!

- Work through PowerPoint Part 1 on the digestive system.

Activity: Naming parts of the digestive system

- Work through PowerPoint Part 2 on the digestive system functions.

Some websites you might like to look at for extra information and fun facts:

<https://www.dkfindout.com/uk/video/human-body/how-digestion-works-video/>

<https://www.natgeokids.com/uk/discover/science/general-science/your-digestive-system/>

<https://www.bbc.co.uk/bitesize/topics/z27kng8>

*****Parental permission and support needed for the following activity*****

Optional activity: Practical of digestive system – see separate sheet.

It would be great to see pictures of the practical so feel free to tweet them to [@ashgroveyear4](https://twitter.com/ashgroveyear4) or email year4@ashgrove.cheshire.sch.uk
