

Where does our food come from?

Where does food come from?

All food comes from plants and / or animals.

Food has to be caught, farmed or grown at home.

How is food changed?

Some foods are not changed much at all from when they are caught or farmed to when we eat them.

Can you think of some foods like this?

How is food changed?

Growing your own food

Can you think of some places that people grow their own food?

Gardens

Allotments

Window boxes

Storing food

If food is left out in the open, it goes rotten.

Can you think of some ways that we store food to
stop it going off?
