

Saturday 6th

21, you add what you previously added plus 1 more each time.

Sunday 7th

13,600

if over 5, round up

Monday 8th
360²

Tuesday 9th

5.8

Take away 5 then add 0.1

Wednesday 10th

104

Thursday 11th

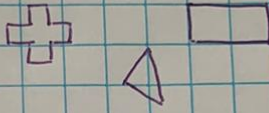

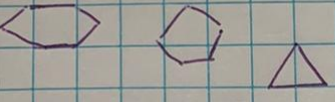

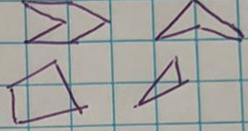

177

Friday 12th

276,767

As there is a 7 in the ten thousands rather than a 6.

Activity 1

	Regular	Irregular
Right Angle		
No Right Angle		

Disagree as the angles must be equal as well.

A = has a right angle.
B = regular polygon.

Activity 2

Investigation - Regular polygons always have the same number of lines of symmetry as number of sides.
