Appendices

- A. [Online harms and risks – curriculum coverage](#)

Statement of intent

All AET policies are written to support our schools and communities. We do this by ensuring they are always in line with our Colleague Values:

Applying these values to everything we do means always acting with integrity, in the interests of others, being honest, open and transparent and putting the safety of our children first.

The Aspire Educational Trust, including Ash Grove Academy, understands that using online services is an important aspect of raising educational standards, promoting pupil achievement, and enhancing teaching and learning. The use of online services is embedded throughout the school; therefore, there are a number of controls in place to ensure the safety of pupils and staff.

The breadth of issues classified within online safety is considerable, but they can be categorised into four areas of risk:

- **Content:** Being exposed to illegal, inappropriate or harmful material, e.g. pornography, fake news, self-harm and suicide, and discriminatory or extremist views.
- **Contact:** Being subjected to harmful online interaction with other users, e.g. peer pressure, commercial advertising, and adults posing as children or young adults with the intention to groom or exploit children.
- **Conduct:** Personal online behaviour that increases the likelihood of, or causes, harm, e.g. sending and receiving explicit messages, and cyberbullying.
- **Commerce:** Risks such as online gambling, inappropriate advertising, phishing and/or financial scams.

The measures implemented to protect pupils and staff revolve around these areas of risk. Our school has created this policy with the aim of ensuring appropriate and safe use of the internet and other digital technology devices by all pupils and staff.

1. Legal framework

This policy has due regard to all relevant legislation and guidance including, but not limited to, the following:

- Voyeurism (Offences) Act 2019
- The UK General Data Protection Regulation (UK GDPR)
- Data Protection Act 2018
- [DfE \(2023\) 'Filtering and monitoring standards for schools and colleges'](#)
- [DfE \(2023\) 'Cyber security standards for schools and colleges'](#)
- [DfE \(2021\) 'Harmful online challenges and online hoaxes'](#)
- [DfE \(2023\) 'Keeping children safe in education 2023'](#)
- [DfE \(2023\) 'Teaching online safety in school'](#)
- [DfE \(2022\) 'Searching, screening and confiscation'](#)
- [DfE \(2023\) 'Generative artificial intelligence in education'](#)
- [Department for Digital, Culture, Media and Sport and UK Council for Internet Safety \(2020\) 'Sharing nudes and semi-nudes: advice for education settings working with children and young people'](#)
- [UK Council for Child Internet Safety \(2020\) 'Education for a Connected World – 2020 edition'](#)
- [National Cyber Security Centre \(2020\) 'Small Business Guide: Cyber Security'](#)

2. Roles and responsibilities

The Board of Trustees and Local Academy Committee is responsible for:

- Ensuring that this policy is effective and complies with relevant laws and statutory guidance.
- Ensuring the DSL's remit covers online safety.
- Reviewing this policy regularly, in accordance with AET policy review schedule.
- Ensuring their own knowledge of online safety issues is up-to-date.
- Ensuring all staff undergo safeguarding and child protection training, including online safety, at induction and at regular intervals.
- Ensuring that there are appropriate filtering and monitoring systems in place.
- Ensuring that the effectiveness of filtering and monitoring systems is reviewed at least annually in liaison with ICT staff and service providers.
- Ensuring that the SLT and other relevant staff have an awareness and understanding of the filtering and monitoring provisions in place, manage them effectively and know how to escalate concerns when identified.
- Ensuring that all relevant policies have an effective approach to planning for, and responding to, online challenges and hoaxes embedded within them.

The Principal is responsible for:

- Ensuring that online safety is a running and interrelated theme throughout the school's policies and procedures, including in those related to the curriculum, teacher training and safeguarding.

- Supporting the DSL and the deputy DSL by ensuring they have enough time and resources to carry out their responsibilities in relation to online safety.
- Ensuring staff receive regular, up-to-date, and appropriate online safety training and information as part of their induction and safeguarding training.
- Ensuring online safety practices are audited and evaluated.
- Ensuring filtering and monitoring processes and procedures meet the DfE Filtering and monitoring standards which are reviewed and documented at least annually.
- Supporting staff to ensure that online safety is embedded throughout the curriculum so that all pupils can develop an appropriate understanding of online safety.
- Organising engagement with parents to keep them up to date with current online safety issues and how the school is keeping pupils safe.

The DSL is responsible for:

- Taking the lead responsibility for online safety in the school.
- Taking a lead responsibility for acting on online safety safeguarding concerns.
- Undertaking training so they understand the risks associated with online safety and can recognise additional risks that pupils with SEND face online.
- Liaising with relevant members of staff on online safety matters, e.g. the SENCO and ICT technician.
- Ensuring online safety is recognised as part of the school's safeguarding responsibilities and that a coordinated approach is implemented.
- Ensuring safeguarding is considered in the school's approach to remote learning.
- Establishing a procedure for reporting online safety incidents and inappropriate internet use, both by pupils and staff, and ensuring all members of the school community understand this procedure.
- Overseeing the filtering and monitoring checks and processes in place at the school.
- Overseeing and acting on filtering and monitoring reports.
- Maintaining records of reported online safety concerns as well as the actions taken in response to concerns.
- Monitoring online safety incidents to identify trends and any gaps in the school's provision and using this data to update the school's procedures.
- Ensuring a review of the filtering and monitoring standards is undertaken with relevant staff and documented at least annually.
- Ensuring that all safeguarding training given to staff includes an understanding of the expectations, roles and responsibilities in relation to filtering and monitoring systems at the school.
- Reporting, at least annually, to the Local Academy Committee about online safety.
- Working with the principal/headteacher and ICT technicians to conduct regular light-touch reviews of this policy.

Our ICT technician is responsible for:

- Providing technical support in the development and implementation of the school's online safety policies and procedures.
- Implementing appropriate security measures as directed by the Principal.
- Checking and maintaining the school's filtering and monitoring systems ensuring they are updated as appropriate.

- Completing actions following concerns or checks to the systems.

All staff members are responsible for:

- Taking responsibility for the security of ICT systems and electronic data they use or have access to.
- Modelling good online behaviours.
- Adhering to the Acceptable Use of Technology Agreement and other relevant policies.
- Maintaining a professional level of conduct in their personal use of technology.
- Having an awareness of online safety issues.
- Ensuring they are familiar with, and understand, the indicators that pupils may be unsafe online.
- Reporting concerns in line with the school's reporting procedure.
- Where relevant to their role, ensuring online safety is embedded in their teaching of the curriculum.

Pupils are responsible for:

- Adhering to their Online Safety Class Charter, the Acceptable Us Agreement and other relevant policies.
- Seeking help from school staff if they are concerned about something they or a peer have experienced online.
- Reporting online safety incidents and concerns in line with the procedures within this policy.

3. Managing online safety

All staff will be aware that technology is a significant component in many safeguarding and wellbeing issues affecting young people, particularly owing to the rise of social media and the increased prevalence of children using the internet.

The DSL has overall responsibility for the school's approach to online safety, with support from Deputy DSLs where appropriate, and will ensure that there are strong processes in place to handle any concerns about pupils' safety online. The DSL should liaise with the police or children's social care services for support responding to harmful online sexual behaviour.

The importance of online safety is integrated across all school operations in the following ways:

- Staff and governors receive regular training
- Staff receive email updates regarding online safety information and any changes to online safety guidance or legislation
- Online Safety Class Charters co-created with children at the start of the academic year
- Online safety is integrated into learning throughout the curriculum, most notably through the Computing curriculum and the PSHE Education curriculum

- Use of UKCIS, 'Education for a Connected World' and Project Evolve to support the teaching of online safety
- Assemblies are conducted on the topic of remaining safe online

Handling online safety concerns

Any disclosures made by pupils to staff members about online abuse, harassment or exploitation, whether they are the victim or disclosing on behalf of another child, will be handled in line with the Child Protection and Safeguarding Policy.

Staff will be aware that pupils may not feel ready or know how to tell someone about abuse they are experiencing, due to feeling embarrassed, humiliated, or threatened. Staff will be aware and recognise the importance of the presence and scale of online abuse or harassment, by considering that just because it is not being reported, does not mean it is not happening.

Staff will be aware that harmful online sexual behaviour can progress on a continuum, and appropriate and early intervention can prevent abusive behaviour in the future. Staff will also acknowledge that pupils displaying this type of behaviour are often victims of abuse themselves and should be suitably supported.

The victim of online harmful sexual behaviour may ask for no one to be told about the abuse. The DSL will consider whether sharing details of the abuse would put the victim in a more harmful position, or whether it is necessary in order to protect them from further harm. Ultimately the DSL will balance the victim's wishes against their duty to protect the victim and other young people. The DSL and other appropriate staff members will meet with the victim's parents to discuss the safeguarding measures that are being put in place to support their child and how the report will progress.

Confidentiality will not be promised, and information may be still shared lawfully, for example, if the DSL decides that there is a legal basis under UK GDPR such as the public task basis whereby it is in the public interest to share the information. If the decision is made to report abuse to children's social care or the police against the victim's wishes, this must be handled extremely carefully and appropriate support provided to the victim.

Concerns regarding a staff member's online behaviour are reported to the Principal, who decides on the best course of action in line with the relevant policies. If the concern is about the Principal, it is reported to the chair of the Board of Trustees.

Where there is a concern that illegal activity has taken place, the principal/headteacher contacts the police.

The school avoids unnecessarily criminalising pupils, e.g. calling the police, where criminal behaviour is thought to be inadvertent and as a result of ignorance or normal developmental curiosity, e.g. a pupil has taken and distributed indecent imagery of themselves. The DSL will decide in which cases this response is appropriate and will manage such cases in line with the Child Protection and Safeguarding Policy.

All online safety incidents and the school's response are recorded by the DSL in the school's recording and reporting system.

4. Cyberbullying

Cyberbullying can include, but is not limited to, the following:

- Threatening, intimidating or upsetting text messages
- Threatening or embarrassing pictures and video clips sent via mobile phone cameras
- Silent or abusive phone calls or using the victim's phone to harass others, to make them think the victim is responsible
- Threatening or bullying emails, possibly sent using a pseudonym or someone else's name
- Menacing or upsetting responses to someone in a chatroom
- Unpleasant messages sent via instant messaging
- Unpleasant or defamatory information posted to blogs, personal websites and social networking sites, e.g. Facebook
- Abuse between young people in intimate relationships online i.e. teenage relationship abuse
- Discriminatory bullying online i.e. homophobia, racism, misogyny/misandry.

The school will be aware that certain pupils can be more at risk of abuse and/or bullying online, such as LGBTQ+ pupils and pupils with SEND.

Cyberbullying against pupils or staff is not tolerated under any circumstances. Incidents of cyberbullying are dealt with quickly and effectively wherever they occur in line with the Bullying Prevention Policy.

5. Child-on-child sexual abuse and harassment

Pupils may also use the internet and technology as a vehicle for sexual abuse and harassment. Staff will understand that this abuse can occur both in and outside of school and off and online, and will remain aware that pupils are less likely to report concerning online sexual behaviours, particularly if they are using websites that they know adults will consider to be inappropriate for their age.

The following are examples of online harmful sexual behaviour of which staff will be expected to be aware:

- Threatening, facilitating or encouraging sexual violence
- Upskirting, i.e. taking a picture underneath a person's clothing without consent and with the intention of viewing their genitals, breasts or buttocks
- Sexualised online bullying, e.g. sexual jokes or taunts
- Unwanted and unsolicited sexual comments and messages
- Consensual or non-consensual sharing of sexualised imagery
- Abuse between young people in intimate relationships online, i.e. teenage relationship abuse

All staff will be aware of and promote a zero-tolerance approach to sexually harassing or abusive behaviour, and any attempts to pass such behaviour off as trivial or harmless. Staff will be aware that allowing such behaviour could lead to a school culture that normalises abuse and leads to pupils becoming less likely to report such conduct.

Staff will be aware that creating, possessing, and distributing indecent imagery of other children, i.e. individuals under the age of 18, is a criminal offence, even where the imagery is created, possessed, and distributed with the permission of the child depicted, or by the child themselves.

The school will be aware that interactions between the victim of online harmful sexual behaviour and the alleged perpetrator(s) are likely to occur over social media following the initial report, as well as interactions with other pupils taking “sides”, often leading to repeat harassment. The school will respond to these incidents in line with the Child-on-child Abuse Policy and the Social Media Policy.

The school responds to all concerns regarding online child-on-child sexual abuse and harassment, regardless of whether the incident took place on the school premises or using school-owned equipment. Concerns regarding online child-on-child abuse are reported to the DSL, who will investigate the matter in line with the Child-on-child Abuse Policy and the Child Protection and Safeguarding Policy.

6. Grooming and exploitation

Grooming is defined as the situation whereby an adult builds a relationship, trust and emotional connection with a child with the intention of manipulating, exploiting and/or abusing them.

Staff will be aware that grooming often takes place online and that pupils who are being groomed are commonly unlikely to report this behaviour for many reasons, including the following:

- The pupil believes they are talking to another child, when they are actually talking to an adult masquerading as someone younger with the intention of gaining their trust to abuse them.
- The pupil does not want to admit to talking to someone they met on the internet for fear of judgement, feeling embarrassed, or a lack of understanding from their peers or adults in their life.
- The pupil may have been manipulated into feeling a sense of dependency on their groomer due to the groomer’s attempts to isolate them from friends and family.
- Talking to someone secretly over the internet may make the pupil feel ‘special’, particularly if the person they are talking to is older.
- The pupil may have been manipulated into feeling a strong bond with their groomer and may have feelings of loyalty, admiration, or love, as well as fear, distress and confusion.

Due to the fact pupils are less likely to report grooming than other online offences, it is particularly important that staff understand the indicators of this type of abuse. The DSL will ensure that online safety training covers online abuse, the importance of looking for signs of grooming, and what the signs of online grooming are, including:

- Being secretive about how they are spending their time online.

- Having an older boyfriend or girlfriend, usually one that does not attend the school and whom their close friends have not met.
- Having money or new possessions, e.g. clothes and technological devices, that they cannot or will not explain.

Child sexual exploitation (CSE) and child criminal exploitation (CCE)

Although CSE often involves physical sexual abuse or violence, online elements may be prevalent, e.g. sexual coercion and encouraging children to behave in sexually inappropriate ways through the internet. In some cases, a pupil may be groomed online to become involved in a wider network of exploitation, e.g. the production of child pornography or forced child prostitution and sexual trafficking.

CCE is a form of exploitation in which children are forced or manipulated into committing crimes for the benefit of their abuser, e.g. drug transporting, shoplifting and serious violence. While these crimes often take place in person, it is increasingly common for children to be groomed and manipulated into participating through the internet.

Where staff have any concerns about pupils with relation to CSE or CCE, they will bring these concerns to the DSL without delay, who will manage the situation in line with the Child Protection and Safeguarding Policy.

Radicalisation

Radicalisation is the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups. This process can occur through direct recruitment, e.g. individuals in extremist groups identifying, targeting and contacting young people with the intention of involving them in terrorist activity, or by exposure to violent ideological propaganda. Children who are targets for radicalisation are likely to be groomed by extremists online to the extent that they believe the extremist has their best interests at heart, making them more likely to adopt the same radical ideology.

Staff members will be aware of the factors which can place certain pupils at increased vulnerability to radicalisation, as outlined in the Prevent Policy. Staff will be expected to exercise vigilance towards any pupils displaying indicators that they have been, or are being, radicalised.

Where staff have a concern about a pupil relating to radicalisation, they will report this to the DSL without delay, who will handle the situation in line with the Prevent Policy.

7. Mental health

Staff will be aware that online activity both in and outside of school can have a substantial impact on a pupil's mental state, both positively and negatively. The DSL will ensure that training is available to help ensure that staff members understand popular social media sites and terminology, the ways in which social media and the internet in general can impact mental health, and the indicators that a pupil is suffering from challenges in their mental health. Concerns about the mental health of a pupil will be dealt with in line with the school's procedures to support the emotional resilience, wellbeing and mental health.

8. Online hoaxes and harmful online challenges

For the purposes of this policy, an “**online hoax**” is defined as a deliberate lie designed to seem truthful, normally one that is intended to scaremonger or to distress individuals who come across it, spread on online social media platforms.

For the purposes of this policy, “**harmful online challenges**” refers to challenges that are targeted at young people and generally involve users recording themselves participating in an online challenge, distributing the video through social media channels and daring others to do the same. Although many online challenges are harmless, an online challenge becomes harmful when it could potentially put the participant at risk of harm, either directly as a result of partaking in the challenge itself or indirectly as a result of the distribution of the video online – the latter will usually depend on the age of the pupil and the way in which they are depicted in the video.

Where staff suspect there may be a harmful online challenge or online hoax circulating amongst pupils in the school, they will report this to the DSL immediately.

The DSL will conduct a case-by-case assessment for any harmful online content brought to their attention, establishing the scale and nature of the possible risk to pupils, and whether the risk is one that is localised to the school or the local area, or whether it extends more widely across the country. Where the harmful content is prevalent mainly in the local area, the DSL will consult with the LA about whether quick local action can prevent the hoax or challenge from spreading more widely.

Prior to deciding how to respond to a harmful online challenge or hoax, the DSL/Principal will decide whether each proposed response is:

- In line with any advice received from a known, reliable source, e.g. the UK Safer Internet Centre, when fact-checking the risk of online challenges or hoaxes.
- Careful to avoid needlessly scaring or distressing pupils.
- Not inadvertently encouraging pupils to view the hoax or challenge where they would not have otherwise come across it, e.g. where content is explained to younger pupils but is almost exclusively being shared amongst older pupils.
- Proportional to the actual or perceived risk.
- Helpful to the pupils who are, or are perceived to be, at risk.
- Appropriate for the relevant pupils’ age and developmental stage.
- Supportive.
- In line with the Child Protection and Safeguarding Policy.

Where the DSL’s assessment finds an online challenge to be putting pupils at risk of harm, they will ensure that the challenge is directly addressed to the relevant pupils, e.g. those within a particular age range that is directly affected or individual pupils at risk where appropriate.

The DSL/Principal will only implement a school-wide approach to highlighting potential harms of a hoax or challenge when the risk of needlessly increasing pupils’ exposure to the risk is considered and mitigated as far as possible.

9. Cyber-crime

Cyber-crime is criminal activity committed using computers and/or the internet. There are two key categories of cyber-crime:

- **Cyber-enabled** – these crimes can be carried out offline; however, are made easier and can be conducted at higher scales and speeds online, e.g. fraud, purchasing and selling of illegal drugs, and sexual abuse and exploitation.
- **Cyber-dependent** – these crimes can only be carried out online or by using a computer, e.g. making, supplying or obtaining malware, illegal hacking, and ‘booting’, which means overwhelming a network, computer or website with internet traffic to render it unavailable.

The school will factor into its approach to online safety the risk that pupils with a particular affinity or skill in technology may become involved, whether deliberately or inadvertently, in cyber-crime.

The DSL and Principal will ensure that pupils are taught, throughout the curriculum, how to use technology safely, responsibly and lawfully.

10. Online safety training for staff

The DSL will ensure that all safeguarding training given to staff includes elements of online safety, including how the internet can facilitate abuse and exploitation, and understanding the expectations, roles and responsibilities relating to filtering and monitoring systems. All staff will be made aware that pupils are at risk of abuse, by their peers and by adults, online as well as in person, and that, often, abuse will take place concurrently via online channels and in daily life.

11. Online safety and the curriculum

Online safety is embedded throughout the curriculum; however, it is particularly addressed in the Computing curriculum and the Personal, Social, Health and Economic Education curriculum, and in reference to the UKCIS document, ‘Education for a Connected World – 2021 edition’ and Project Evolve.

Online safety teaching is always appropriate to pupils’ ages and developmental stages.

Pupils are taught the underpinning knowledge and behaviours that can help them to navigate the online world safely and confidently regardless of the device, platform or app they are using. The underpinning knowledge and behaviours pupils learn through the curriculum include the following:

- How to evaluate what they see online
- How to recognise techniques used for persuasion
- Acceptable and unacceptable online behaviour
- How to identify online risks
- How and when to seek support

- Knowledge and behaviours that are covered in the government's online media literacy strategy

The online risks pupils may face online are always considered when developing the curriculum. The risks that are considered and how they are covered in the curriculum can be found in [Appendix A](#) of this policy.

The DSL is involved with the development of the school's online safety curriculum. Pupils will be consulted on the online safety curriculum, where appropriate, due to their unique knowledge of the kinds of websites they and their peers frequent and the kinds of behaviours in which they engage online.

The school recognises that, while any pupil can be vulnerable online, there are some pupils who may be more susceptible to online harm or have less support from family and friends in staying safe online, e.g. pupils with SEND and Looked After Children. Relevant members of staff, e.g. the SENCO and designated teacher for LAC, work together to ensure the curriculum is tailored so these pupils receive the information and support they need.

The school will also endeavour to take a more personalised or contextualised approach to teaching about online safety for children identified as more susceptible, and in response to instances of harmful online behaviour from pupils.

The school subscribes to the PSHE Association, and all class teachers have access to these teaching resources. Class teachers review any other external resources prior to using them for the online safety curriculum, to ensure they are appropriate for the cohort of pupils. When reviewing these resources, the following questions are asked:

- Where does this organisation get their information from?
- What is their evidence base?
- Have they been externally quality assured?
- What is their background?
- Are they age-appropriate for pupils?
- Are they appropriate for pupils' developmental stage?

External visitors may be invited into school to help with the delivery of certain aspects of the online safety curriculum. The Principal/DSL decide when it is appropriate to invite external groups into school and ensure the visitors selected, and the content they will deliver, are appropriate.

Before conducting a lesson or activity on online safety, the class teacher considers the topic that is being covered and the potential that pupils in the class have suffered or may be suffering from online abuse or harm in this way. The class teacher may seek advice from the safeguarding team on how to best support any pupil who they feel may be especially impacted by a lesson or activity. Lessons and activities are planned carefully so they do not draw attention to a pupil who is being or has been abused or harmed online, to avoid publicising the abuse.

During an online safety lesson or activity, the class teacher ensures a safe environment is maintained in which pupils feel comfortable to say what they feel and ask questions, and are not worried about getting into trouble or being judged.

If a staff member is concerned about anything pupils raise during online safety lessons and activities, they will make a report in line with the Child Protection and Safeguarding Policy.

If a pupil makes a disclosure to a member of staff regarding online abuse following a lesson or activity, the staff member will follow the reporting procedure outlined in the Child Protection and Safeguarding Policy.

12. Use of technology in the classroom

A range of technology is used during lessons, including the following:

- Laptops
- Intranet
- Tablets with camera function

Prior to using any websites, tools, apps or other online platforms in the classroom, or recommending that pupils use these platforms at home, the class teacher always reviews and evaluates the resource. Class teachers ensure that any internet-derived materials are used in line with copyright law.

Pupils are supervised when using online materials during lesson time – this supervision is suitable to their age and ability.

13. Use of smart technology

Staff will use all smart technology and personal technology in line with the school's Staff ICT and Electronic Devices Policy.

Pupils will not be permitted to use smart devices or any other personal technology whilst on the school premises. Where pupils in certain year groups are permitted to carry personal smart devices to use on their journey to and from school, these will be stored securely by the class teacher throughout the school day.

Pupils will be educated on the acceptable and appropriate use of personal devices through the Computing curriculum and the PSHE Education curriculum. The school will also hold assemblies, where appropriate, which address issues related to the use of smart technology, and outlining the importance of using smart technology in an appropriate manner.

Where it is deemed necessary, the school will discipline any breach of the Online Safety Class Charter or of the school's acceptable use agreement in line with the school's Behaviour Policy.

The school will seek to ensure that it is kept up to date with the latest devices, platforms, apps, trends and related threats.

The school will consider the 4Cs (content, contact, conduct and commerce) when educating pupils about the risks involved with the inappropriate use of smart technology and enforcing the appropriate disciplinary measures.

14. Educating parents

The school works in partnership with parents to ensure pupils stay safe online at school and at home. Parents are provided with information about the school's approach to online safety and their role in protecting their children. Parents are sent a copy of the Acceptable Use Agreement and are encouraged to support the safe use of technology and the internet through the Home School Agreement.

Parents will be made aware of the various ways in which their children may be at risk online, and will be informed of the ways in which they can prevent their child from accessing harmful content at home, e.g. by implementing parental controls to block age-inappropriate content.

Parental awareness regarding how they can support their children to be safe online is raised in the following ways:

- Information emails
- Face-to-face information workshops
- 'Advice for Parents' section of the school website
- 'Online Safety Advice for Parents' section of the school website
- Parents' evenings

15. Internet access

All members of the school community will be encouraged to use the school's internet network, instead of 3G, 4G and 5G networks, as the network has appropriate filtering and monitoring to ensure individuals are using the internet appropriately.

16. Filtering and monitoring online activity

The Board of Trustees will ensure the all AET schools' ICT networks have appropriate filters and monitoring systems in place and that each school is meeting the DfE's '[Filtering and monitoring standards for schools and colleges](#)'. The Board of Trustees will ensure 'over blocking' does not lead to unreasonable restrictions as to what pupils can be taught with regards to online teaching and safeguarding.

The DSL in each school will ensure that specific roles and responsibilities are identified and assigned to manage filtering and monitoring systems and to ensure they meet the school's safeguarding needs.

The Principal/DSL, with support from the ICT technician, will undertake a risk assessment to determine what filtering and monitoring systems are required to meet the risk profile of the school's pupils. The filtering and monitoring systems the school implements will be appropriate to:

- The profile of pupils' including age range, pupils with special educational needs and disability (SEND), pupils with English as an additional language (EAL).
- How pupils access the network.
- Outside safeguarding influences, such as county lines.
- Relevant safeguarding reports or incidents.
- Digital resilience of pupils.

- The specific use of the school's chosen technologies.

ICT technicians will undertake regular and frequent checks on the filtering and monitoring systems to ensure they are effective and appropriate. These checks will cover the range of devices used, the different locations on site and all user groups. Annually, checks should be recorded for the full range of the school's devices, locations and users. Records of all filtering and monitoring checks will be documented.

Requests regarding making changes to the filtering system are directed to the Principal. Prior to making any changes to the filtering system, ICT technicians and the DSL will conduct a risk assessment. Any changes made to the system will be recorded by ICT technicians. Schools Broadband provides reports of what is being blocked and who has requested it. Reports of inappropriate websites or materials are made to an ICT technician immediately, who then investigates the matter and makes any necessary changes.

Deliberate breaches of the filtering system are reported to the DSL and ICT technicians, who will escalate the matter appropriately. If a pupil has deliberately breached the filtering system, they will be disciplined in line with the Behavioural Policy. If a member of staff has deliberately breached the filtering system, they will be disciplined in line with the Disciplinary Policy and Procedure.

If material that is believed to be illegal is accessed, inadvertently or deliberately, this material will be reported to the appropriate agency immediately, e.g. the Internet Watch Foundation (IWF), CEOP and/or the police.

The school's network and school-owned devices are appropriately monitored. All users of the network and school-owned devices are informed about how and why they are monitored. Concerns identified through monitoring are reported to the DSL who manages the situation in line with the Child Protection and Safeguarding Policy.

17. Network security

Technical security features, such as anti-virus software, are kept up-to-date and managed by ICT technicians. The firewall is provided by Schools Broadband and is set to restrict access to the school network from the outside. Firewalls are switched on at all times.

Staff and pupils are advised not to download unapproved software or open unfamiliar email attachments, and are expected to report all malware and virus attacks to ICT technicians.

All members of staff have their own unique usernames and private passwords to access the school's systems. Pupils are provided with their own unique username and private passwords. Staff members and pupils are responsible for keeping their passwords private. Passwords should be as secure as possible in line with Cyber Security training provided.

Users inform ICT technicians if they forget their login details, who will arrange for the user to access the systems under different login details. Users are not permitted to share their login details with others and are not allowed to log in as another user at any time. Users are required to lock access to devices and systems when they are not in use.

Full details of the school's network security measures can be found in the Data and CyberSecurity Breach Prevention and Management Plan.

18. Emails

Access to and the use of emails is managed in line with the Data Protection Policy, Acceptable Use Agreement, and the Confidentiality Policy.

Staff and pupils are given approved school email accounts and are only able to use these accounts at school and when doing school-related work outside of school hours. Prior to being authorised to use the email system, staff and pupils must agree to and sign the Acceptable Use Agreement. Personal email accounts are not permitted to be used on the school site. Any email that contains sensitive or personal information is only sent using secure and encrypted email.

Staff members and pupils are required to block spam and junk mail, and report the matter to ICT technicians. The school's monitoring system can detect inappropriate links, malware and profanity within emails – staff and pupils are made aware of this. Chain letters, spam and all other emails from unknown sources are deleted without being opened. Staff members will receive regular awareness reminders on what a phishing email and other malicious emails might look like – including information on the following:

- How to determine whether an email address is legitimate
- The types of address a phishing email could use
- The importance of asking “does the email urge you to act immediately?”
- The importance of checking the spelling and grammar of an email

Any cyber-attacks initiated through emails are managed in line with the Cyber Response and Recovery Plan.

19. General Artificial Intelligence (AI)

The trust and its schools will take steps to prepare pupils for changing and emerging technologies, e.g. generative AI and how to use them safely and appropriately with consideration given to pupils' age.

The school will ensure its IT system includes appropriate filtering and monitoring systems to limit pupil's ability to access or create harmful or inappropriate content through generative AI.

The school will ensure that pupils are not accessing or creating harmful or inappropriate content, including through generative AI.

The school will take steps to ensure that personal and sensitive data is not entered into generative AI tools and that it is not identifiable.

The school will make use of any guidance and support that enables it to have a safe, secure and reliable foundation in place before using more powerful technology such as generative AI.

20. Social Media

The use of social media by staff and pupils will be managed in line with the school and Trust's Social Media Policy.

21. The school website

The Principal will be responsible for the overall content of their school's website – they will ensure the content is appropriate, accurate, up-to-date and meets trust and government requirements.

The trust's website will be managed by a member of the trust's central team - they will ensure the content is appropriate, accurate, up-to-date and meets trust and government requirements.

22. Use of Devices

Staff members and pupils will be issued with school-owned devices to assist with their work, where necessary.

The use of personal devices on the school premises and for the purposes of school work will be managed in line with the staff technology and acceptable use agreement and pupil acceptable use agreement.

23. Remote learning

All remote learning will be delivered in line with the school's AET Guidance for safety in Remote Online Video & Telephone Communication.

This policy specifically sets out how online safety will be considered when delivering remote education.

24. Monitoring and review

The school and Trust recognises that the online world is constantly changing; therefore regular light-touch reviews of this policy may be undertaken to evaluate its effectiveness.

The policy will be reviewed in full in accordance with the AET policy schedule and following any online safety incidents.

Any changes made to this policy are communicated to all members of the school community.

Appendix A: Online harms and risks – curriculum coverage

Subject area	Description and teaching content	Curriculum area the harm or risk is covered in
How to navigate the internet and manage information		
Age restrictions	<p>Some online activities have age restrictions because they include content which is not appropriate for children under a specific age. Teaching includes the following:</p> <ul style="list-style-type: none"> • That age verification exists and why some online platforms ask users to verify their age • Why age restrictions exist • That content that requires age verification can be damaging to under-age consumers • What the age of digital consent is (13 for most platforms) and why it is important 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education • Computing
How content can be used and shared	<p>Knowing what happens to information, comments or images that are put online. Teaching includes the following:</p> <ul style="list-style-type: none"> • What a digital footprint is, how it develops and how it can affect pupils' futures • How cookies work • How content can be shared, tagged and traced • How difficult it is to remove something once it has been shared online • What is illegal online, e.g. youth-produced sexual imagery (sexting) 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education • Computing
Disinformation, misinformation and hoaxes	<p>Some information shared online is accidentally or intentionally wrong, misleading or exaggerated. Teaching includes the following:</p> <ul style="list-style-type: none"> • Disinformation and why individuals or groups choose to share false information in order to deliberately deceive • Misinformation and being aware that false and misleading information can be shared inadvertently 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education • Computing

	<ul style="list-style-type: none"> • Online hoaxes, which can be deliberately and inadvertently spread for a variety of reasons • That the widespread nature of this sort of content can often appear to be a stamp of authenticity, making it important to evaluate what is seen online • How to measure and check authenticity online • The potential consequences of sharing information that may not be true 	
Fake websites and scam emails	<p>Fake websites and scam emails are used to extort data, money, images and other things that can either be used by the scammer to harm the person targeted or sold on for financial, or other, gain. Teaching includes the following:</p> <ul style="list-style-type: none"> • How to recognise fake URLs and websites • What secure markings on websites are and how to assess the sources of emails • The risks of entering information to a website which is not secure • What pupils should do if they are harmed, targeted, or groomed as a result of interacting with a fake website or scam email • Who pupils should go to for support 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education • Computing
Online fraud	<p>Fraud can take place online and can have serious consequences for individuals and organisations. Teaching includes the following:</p> <ul style="list-style-type: none"> • What identity fraud, scams and phishing are • That children are sometimes targeted to access adults' data • What 'good' companies will and will not do when it comes to personal details 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education • Computing
Password phishing	<p>Password phishing is the process by which people try to find out individuals' passwords so they can access protected content. Teaching includes the following:</p>	<p>This risk or harm is covered in the following curriculum areas:</p>

	<ul style="list-style-type: none"> • Why passwords are important, how to keep them safe and that others might try to get people to reveal them • How to recognise phishing scams • The importance of online security to protect against viruses that are designed to gain access to password information • What to do when a password is compromised or thought to be compromised 	<ul style="list-style-type: none"> • PSHE Education • Computing
Personal data	<p>Online platforms and search engines gather personal data – this is often referred to as ‘harvesting’ or ‘farming’. Teaching includes the following:</p> <ul style="list-style-type: none"> • How cookies work • How data is farmed from sources which look neutral • How and why personal data is shared by online companies • How pupils can protect themselves and that acting quickly is essential when something happens • The rights children have with regards to their data • How to limit the data companies can gather 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education • Computing
Persuasive design	<p>Many devices, apps and games are designed to keep users online for longer than they might have planned or desired. Teaching includes the following:</p> <ul style="list-style-type: none"> • That the majority of games and platforms are designed to make money, and that their primary driver is to encourage people to stay online for as long as possible • How notifications are used to pull users back online 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education • Computing
Privacy settings	<p>Almost all devices, websites, apps and other online services come with privacy settings that can be used to control what is shared. Teaching includes the following:</p>	<p>This risk or harm is covered in the following curriculum areas:</p>

	<ul style="list-style-type: none"> • How to find information about privacy settings on various devices and platforms • That privacy settings have limitations 	<ul style="list-style-type: none"> • PSHE Education • Computing
Targeting of online content	<p>Much of the information seen online is a result of some form of targeting. Teaching includes the following:</p> <ul style="list-style-type: none"> • How adverts seen at the top of online searches and social media have often come from companies paying to be on there and different people will see different adverts • How the targeting is done • The concept of clickbait and how companies can use it to draw people to their sites and services 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education • Computing
How to stay safe online		
Online abuse	<p>Some online behaviours are abusive. They are negative in nature, potentially harmful and, in some cases, can be illegal. Teaching includes the following:</p> <ul style="list-style-type: none"> • The types of online abuse, including sexual harassment, bullying, trolling and intimidation • How to respond to online abuse and how to access support • How to respond when the abuse is anonymous • The potential implications of online abuse • What acceptable and unacceptable online behaviours look like 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education • Computing
Challenges	<p>Online challenges acquire mass followings and encourage others to take part in what they suggest. Teaching includes the following:</p> <ul style="list-style-type: none"> • What constitutes a 'dare' and how these 'challenges' may be presented online • Understanding that, while some challenges will be fun and harmless, others may be dangerous and even illegal 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education • Computing

	<ul style="list-style-type: none"> • How to assess if the challenge is safe or potentially harmful, including considering who has generated the challenge and why • That it is okay to say no and to not take part in a dare or challenge • How and where to go for help • The importance of telling an adult about dares or challenges which include threats or secrecy, such as 'chain letter' style challenges 	
Content which incites violence	<p>Knowing that violence can be incited online and escalate very quickly into offline violence. Teaching includes the following:</p> <ul style="list-style-type: none"> • That online content (sometimes gang related) can glamorise the possession of weapons and drugs • That to intentionally encourage or assist in an offence is also a criminal offence • How and where to get help if they are worried about involvement in violence 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education • Computing
Fake profiles	<p>Not everyone online is who they say they are. Teaching includes the following:</p> <ul style="list-style-type: none"> • That, in some cases, profiles may be people posing as someone they are not or may be 'bots' • How to look out for fake profiles 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education • Computing
Grooming	<p>Knowing about the different types of grooming and motivations for it, e.g. radicalisation, child sexual abuse and exploitation, and gangs and county lines. Teaching includes the following:</p> <ul style="list-style-type: none"> • Recognising what makes a healthy relationship and understanding what to do if a relationship changes and no longer feels healthy • Boundaries in friendships with peers, in families, and with others • Key indicators of grooming behaviour 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education • Computing

	<ul style="list-style-type: none"> • The importance of telling a trusted adult if anything they see, hear or are asked to do makes them feel uncomfortable • How and where to report these issues, both in school and to the police <p>At all stages, it is important to balance teaching pupils about making sensible decisions to stay safe whilst being clear it is never the fault of the child who is abused and why victim blaming is always wrong.</p>	
Livestreaming	<p>Livestreaming (showing a video of yourself in real-time online, either privately or to a public audience) can be popular with children, but it carries a risk when carrying out and watching it. Teaching includes the following:</p> <ul style="list-style-type: none"> • What the risks of carrying out livestreaming are, e.g. the potential for people to record livestreams and share the content • The importance of thinking carefully about who the audience might be and if pupils would be comfortable with whatever they are streaming being shared widely • That online behaviours should mirror offline behaviours and that this should be considered when making a livestream • That pupils should not feel pressured to do something online that they would not do offline • Why people sometimes do and say things online that they would never consider appropriate offline • The risk of watching videos that are being livestreamed, e.g. there is no way of knowing what will be shown next 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education • Computing
Unsafe communication	<p>Knowing different strategies for staying safe when communicating with others, especially people they do not know or have not met. Teaching includes the following:</p> <ul style="list-style-type: none"> • That communicating safely online and protecting your privacy and data is 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education

	<p>important, regardless of who you are communicating with</p> <ul style="list-style-type: none"> • How to identify indicators of risk and unsafe communications • The risks associated with giving out addresses, phone numbers or email addresses to people pupils do not know, or arranging to meet someone they have not met before • What online consent is and how to develop strategies to confidently say no to both friends and strangers online 	<ul style="list-style-type: none"> • Computing
Wellbeing		
<p>Impact on confidence (including body confidence)</p>	<p>Knowing about the impact of comparisons to 'unrealistic' online images. Teaching includes the following:</p> <ul style="list-style-type: none"> • The issue of using image filters and digital enhancement • The role of social media influencers, including that they are paid to influence the behaviour of their followers • The issue of photo manipulation, including why people do it and how to look out for it 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education
<p>Impact on quality of life, physical and mental health and relationships</p>	<p>Knowing how to identify when online behaviours stop being fun and begin to create anxiety, including that there needs to be a balance between time spent online and offline. Teaching includes the following:</p> <ul style="list-style-type: none"> • How to evaluate critically what pupils are doing online, why they are doing it and for how long (screen time) • How to consider quality vs. quantity of online activity • The need for pupils to consider if they are actually enjoying being online or just doing it out of habit, due to peer pressure or due to the fear or missing out • That time spent online gives users less time to do other activities, which can lead some users to become physically inactive • The impact that excessive social media usage can have on levels of anxiety, 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education

	<p>depression and other mental health issues</p> <ul style="list-style-type: none"> • That isolation and loneliness can affect pupils and that it is very important for them to discuss their feelings with an adult and seek support • Where to get help 	
<p>Online vs. offline behaviours</p>	<p>People can often behave differently online to how they would act face to face. Teaching includes the following:</p> <ul style="list-style-type: none"> • How and why people can often portray an exaggerated picture of their lives (especially online) and how that can lead to pressures around having perfect or curated lives • How and why people are unkind or hurtful online when they would not necessarily be unkind to someone face to face 	<p>This risk or harm is covered in the following curriculum areas:</p> <ul style="list-style-type: none"> • PSHE Education
<p>Suicide, self-harm and eating disorders</p>	<p>Pupils may raise topics including eating disorders, self-harm and suicide. Teachers must be aware of the risks of encouraging or making these seem a more viable option for pupils and should take care to avoid giving instructions or methods and avoid using language, videos and images.</p>
