

TAKEHOME

Should there be a limit on how rich one person can become?

In the news this week

Poverty-fighting charity, Oxfam, recently released a new report on inequality and global corporate power. It found that the world's five richest people have more than doubled their fortunes from a combined total of £321 billion to £688 billion since 2020. The wealth of the poorest 60% (nearly five billion people) has fallen. If this trend continues, the world will have its first trillionaire within 10 years, whilst poverty may not be eradicated for another nearly 230 years.

Things to talk about at home ...

- Share your thoughts on this week's story. Are you surprised to learn that there will likely be a trillionaire within ten years?
- Can you name any billionaires? Do you know how they acquired their money?
- Do you think more should be done e.g., by governments, to reduce the gap between the world's richest and poorest people?
